

3 Courses

Introduction to Trading,
Machine Learning & GCP

Using Machine Learning in
Trading and Finance

Reinforcement Learning for
Trading Strategies

Dec 22, 2024

Ronniel Gandhe

has successfully completed the online Specialization

Machine Learning for Trading

The courses will teach you how to create various quantitative and algorithmic trading strategies using Python. By the end of the specialization, you will be able to create long-term trading strategies, short-term trading strategies, and hedging strategies.

Jack Farmer
Curriculum Director
New York Institute of
Finance

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
